

BOOK SCANNER

L140 Joy-BookScan

Joy-BookScan L140 is a portable book scanner that scans documents in various forms in a faster and more economical way. Using intelligent hardware and advanced algorithms, you can scan all books, magazines, contracts, or any paper documents in the A3 size range at a speed of 40 pages / meter without cutting or dividing. All your scanned files can be converted into editable Word, PDF, TIFF and Excel by OCR (Optical Character Recognition) function.

Multiple
Operating Modes

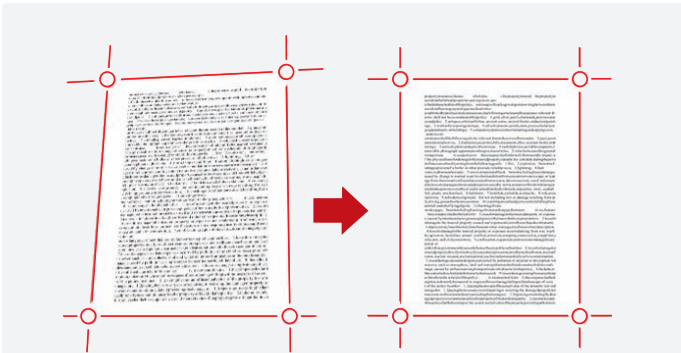

Multi-Material
Compatibility

Portable

Intelligent Image Processing Software

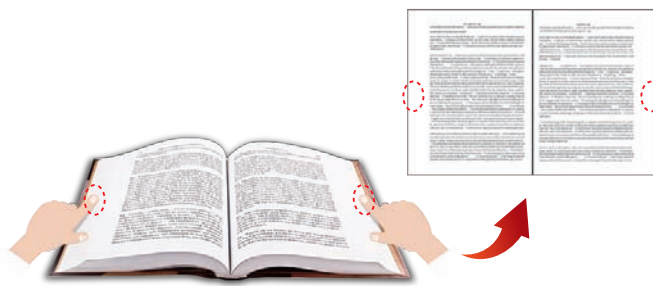

Distortion Correction

No matter how random or crooked your document is placed under the camera, the scanner software will easily correct it.

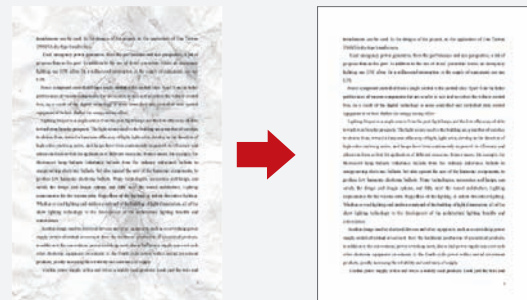

Flattening Surface & Smart Paging

With the advanced algorithm, the crimped page could be flattened accurately and Paged Intelligently.

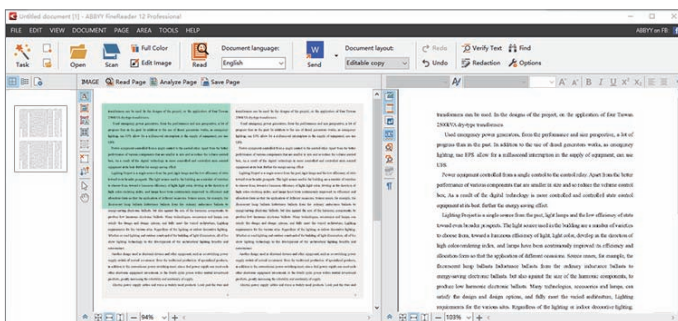

Finger Mark Removal

When scanning a book, just lay your book under the camera, open and hold down with your fingertips, the software will recognize and crop your fingers intelligently.

Multi Color Modes

The software can process your book in four Color Modes: Color, Stamp, Grayscale and B&W. This collection fits every document and result you need.

Optical Character Recognition

Built in ABBYY Fine Reader character recognition engine, identifiable nearly 180 languages. even combinations are mixed, the recognition rate is not less than 99%.

Application

Jov-BookScan L140 reads, analyzes and saves a wide range of documents and materials, including books and magazines. Paper materials such as contracts, documents, checks, bills, ID cards, permits, freehand sketches, oil paintings, etc., are very suitable for use in libraries, file management, enterprise reference rooms and other places. Thanks to the ability to capture motion under the camera, Joy-BookScan L140 can easily generate video from real-time operations, as well as save and share presentations in the classroom or conference.

Specifications

resolutions	4320*3240
Senser	1/2.3" CMOS
Image Color	24bit color
Focus mode	Fixed
exposure mode	Auto/manual
All-round scan	Certificates, documents, books, all kinds of bills, etc
Scan Area	A3
Image Format	JPG、GIF、TIF、PNG、BMP、PDF
Light Source	LED light Brightness can be adjusted
Schooting mode	Hand button, foot pedal, mouse
Scan Speed	≤1 Second
Dimension	349x115x260mm
Weight	1500g
Interface	USB2.0
FOV	82°
